

## UTILITY PROGRAM TO UPLOAD FT8 CONTACT LOG TO QRZ

Attached is the utility program I referred to in my presentation. Instructions for use follow below.

Function: Create a ADIF file that has all the new FT8 QSO's since the last time you uploaded.

(Note: the first time you run it, it will include your entire WSJT-8 log file.)

- 1) Download "Upload2QRZ.zip" from OARC website.
- 2) Unzip it.
- 3) Copy "Upload2QRZ.exe" it to the desktop.
- 4) After an FT8 session, run the utility.  
(It will create a file named UploadFT8.adf)
- 5) Upload that file to QRZ.

Contact WB7RLX if you have any issues ([ee\\_morgan@outlook.com](mailto:ee_morgan@outlook.com))
