Have Baofeng Radios been Outlawed?

I know we have all seen it, the notice from the FCC, *Public Notice, DA 18-980*.
"TWO-WAY VHF/UHF RADIOS MAY NOT BE IMPORTED, ADVERTISED, OR SOLD IN THE UNITED STATES UNLESS THEY COMPLY WITH THE COMMISSION'S RULES"

So, what does this mean, exactly?

The advisory, found here, <https://docs.fcc.gov/public/attachments/DA-18-980A1.pdf> talks about the import, sale, and advertising of devices that are not Part 90 certified.

Many Baofeng radios are "wide open" in the 136-174Mhz and 400-520Mhz ranges. According to the advisory, that makes them illegal to import, market, and sell them. We might think:

That it is legal to own or operate these radios if you are a Licensed Amateur Radio Operator, and you operate ONLY in Amateur Radio Frequencies allocated to your Radio Class. That it is only illegal if you are NOT licensed and / or you operate out of band.

The ARRL's initial discussions with the FCC uncovered what might have been a confirmation of this line of thought:

The "illegal" part appears to be on the part of the "business" who "imports, markets, or sells" such devices "within the United States". The rest of us, it seems, can purchase and use, legally, so long as we are licensed and within our bands.

However....

While this appears to be the ARRL's (and our) understanding, that isn't exactly what the FCC is saying:

"If the radio is non-compliant in non-amateur bands (i.e., not certified) — then it cannot be used at all, even in amateur bands." Laura Smith, Special Counsel for the Enforcement Bureau of the FCC

I'm pretty sure the ARRL will get things fixed and clarified with the FCC, but for now, it does appear that the USE of the UNCERTIFIED Baofeng radios is illegal. I believe Ms. Smith has misinterpreted Part 97.101, but her use of U.S. Code Title 47, Chapter 5, Subchapter III, Part I, § 302a appears to support her assertion.

One of the better parts of the Amateur Radio Service is our ability to "home brew" and experiment with devices (etc) on Amateur Bands.

If this new understanding of the Service is applied, we lose this capability.

My Friends, if you are not members of the ARRL, I would ask that you consider becoming a member. Fights like this are what the ARRL is for.

If you do decide to join, see Jerry. The Club gets some benefit if you join the ARRL through the club.

See y'all at the Christmas Party!

We planned to run the following in this months newsletter, but before that time of month arrived we had a volunteer step forward already. [See the following page.](#)

Volunteer Needed

Support your Club

Step up Now

OARC Activity Director needed...

With the passing of Steve Kammeyer K7EMD (sk) we are now in need of a new OARC Activity Director for the remainder of the 2018-2019 fiscal year (thru August 2019).

Please consider volunteering yourself for this position and join your fellow club officers to support our wonderful club.

DO IT NOW!!!

Email the newsletter editor/webmaster at "OgdenARC@OgdenARC.org" or contact any of the OARC club officers.

CLUB NEWS

We had a volunteer step forward when our current Activity Director passed away suddenly.

Meet our new OARC - Activity Director

Bob Smith KG7EIZ

Thanks for volunteering Bob.

CLUB NEWS

We had another volunteer come forward when he realized that maybe our treasurer needed backup assistance.

Meet our new OARC – Assistant Treasurer

J. Siddle KG7CJN

Thanks for volunteering J.

FCC Fines Amateur Radio Licensee \$25,000 for Operating Unlicensed FM Station

11/01/2018

In an FCC Enforcement Bureau case going back to early 2015, a Paterson, New Jersey, Amateur Radio licensee has been penalized in the amount of \$25,000 for allegedly continuing to operate an unlicensed FM radio station. The FCC issued a [*Forfeiture Order*](#) on October 30 to Winston A. Tulloch, KC2ALN, a General class licensee. The fine followed an April 2018 *Notice of Apparent Liability for Forfeiture (NAL)* issued to Tulloch for alleged “willful and repeated violation” of Section 301 of the Communications Act of 1934, as amended, by operating an unlicensed FM radio station on 90.9 MHz in Paterson. Tulloch did not respond to the *NAL*, the FCC indicated.

“Commission action in this area is essential because unlicensed radio stations do not broadcast Emergency Alert Service messages and therefore create a public safety hazard for their listener,” the FCC said in the *Forfeiture Order*. “Moreover, unlicensed radio stations create a danger of interference to licensed communications and undermine the Commission’s authority over broadcast radio operations.”

Following up on February 2015 complaints regarding pirate radio operations in Paterson, FCC agents spotted a signal on 90.9 MHz that “appeared to be an unauthorized radio station.” Agents determined the signal was emanating from a multi-family dwelling and noticed an FM antenna on the structure. The measured field strength exceeded the limits allowed for Part 15 unlicensed devices.

Through a solicitation broadcast on the station for advertisers and a vehicle parked outside the building, the FCC agents were able to determine that the telephone number in the announcement belonged to Tulloch, and the car was registered in his name. FCC agents made several visits to Paterson in late 2015 and early 2016. In October of 2016, agents returned to Paterson and determined that the signal source had relocated to another nearby multi-family structure. A *Notice of Unlicensed Operation (NOUO)* was posted on the door of the building and the following month, the FCC mailed an *NOUO* to Tulloch.

Subsequent visits revealed that the station was still in operation, and, at some point, had moved back to its prior location. Additional *NOUOs* were issued. Finally, on September 15, 2017, two agents returned to Paterson and determined that the station no longer was on the air.

In the *Forfeiture Order*, the FCC incorporated by reference the details of the investigation spelled out in the earlier *NAL*.

The Tulloch case is among dozens that the FCC Enforcement Bureau has initiated in the past couple of years in efforts to shut down pirate broadcasters across the US, the vast majority of which are *not* FCC amateur licensees.

Big changes ahead for ARRL board

The results are finally in. No, I'm not talking about the national mid-term election results. As I'm writing this, some of those votes are still being counted. I'm talking about this year's ARRL board elections. ARRL members have spoken, and they have elected four new faces to the board in what was the most hotly-contested election in a long time.

Three of the five incumbents, plus an incumbent vice director running for the Northwest Division director position, were defeated by candidates calling for more transparency and for changes in the way that the ARRL operates.

Here are the results:

Central Division Director

Kermit Carlson, W9XA 1,898

Valerie Hotzfeld, NV9L 1,755

Hudson Division Director

Ria Jairam, N2RJ 1,292

Mike Lisenco, N2YBB 1,239

New England Division Director

Fred Hopengarten, K1VR 1,432

Tom Frenaye, K1KI 1,383

Northwestern Division Director

Mike Ritz, W7VO 1,589

Bonnie Altus, AB7ZQ 1,308

Horace Hamby, N7DRW 495

Roanoke Division Director

George Hippisley, W2RU 1,891

Dr. James Boehner, N2ZZ 1,365

In the only two contested vice director elections, Mark Tharp, KB7HDX defeated Daniel Stevens, KL7WM and Delvin Bunton, NS7U in the Northwest Division and in the Roanoke Division, William Morine, N2COP defeated John Humphry, W4IM. All newly elected officials will take office at noon on January 1, 2019.

I was kind of surprised here that Valerie Hotzfeld, NV9L, failed to win in the Central Division. She has certainly made many contributions to amateur radio, both in the DX/contest community and on *Ham Nation*. Apparently, though, she made some statements that she was forced to retract, and that probably hurt her campaign, and as some pointed out to me, Kermit Carlson, W9XA, was well thought of in the Central Division and in the VHF/UHF community.

Overall, though, I'm very pleased with the results. Although some of the margins of victory were small—K1VR won by only 49 votes and N2RJ won by 53 votes—I think it's pretty clear that the members want change. Now, it's up to the board, including its newest members to effect that change. As always, I'm ready to help in any way that I can.

by Kent Gardner WA7AHY

SK

The November 2018 issue of our Ogden Amateur Radio Club's newsletter, *Watts News* paid a nice tribute to our friend Steve Kammeyer, K7EMD SK, after his untimely passing of a heart attack in Hawaii, while on vacation.

Thanks to Val, K7HCP for putting a tribute together, in pictures. Our club photographers are Ceva Cottrell, W7CVA and Rick Hansen, N7EGA. They have always contributed great pictures. There may have been others who took pictures and made them available for the club to use from events such as the "T" hunt and the Golden Spike Special Event's Station. In any case, it was photographically evident that Steve was a participant in many of our activities.

As club Historian and Librarian, I print a hard copy of each month's newsletter for our history. I was so moved by the pictorial of Steve, I decided to print out an extra hard copy for his family. With approval, I mailed a copy of the newsletter to the family and included a cover letter. By special request, I am including a copy of the cover letter here.

14 November 2018

Family of Steve Kammeyer, K7EMD

4902 Apache Way

Ogden, Utah 84403

Dear Family,

I was saddened to hear of Steve's passing.

As the Ogden Amateur Radio Club's (OARC) Historian and Librarian I print out the monthly newsletter, *Watts News*, for our history. A lot of the newsletter for this month featured a pictorial of Steve's ham radio activities and I was sure that you would like a copy for your history.

If any of you would like to view the newsletter in electronic format:

Go to ogdenarc.org

Find the newsletter picture on the right. The picture shows the August 2018 cover, but at the bottom right find the November 2018 text. Click on that.

The PDF file opens up for you to read. The link will be open for a few weeks.

If you try to read it after next month's newsletter is published:

Go to ogdenarc.org

Follow the buttons to the right under the club logo to Watts-News Newsletter

Click on that button.

Then, click on Archive

Find the November 2018 entry and click on it

The issue should show up.

Perhaps you already know the term SK after his name. It means **Silent Key**. There is a deeper meaning for amateur radio operators.

SK, End of transmission (..._._)

Morse code operators use di di di dah di dah when they end their messages. In the physical sense it means the end of Steve's contributions to the world. We know of course, that in the spiritual sense, it means clearing the page and beginning a new one.

Steve certainly earned his SK.

Respectfully,

Kent S. Gardner, WA7AHY

(I put my ham radio business card in the envelope so they know how to contact me, if they need to.)

CLUB REPEATER NEWS

Scott Willis KD7EKO

Mike Fullmer KZ7O

Scott Willis KD7EKO and Mike Fullmer KZ7O are the OARC repeater engineers that keep our club repeaters at Mt Ogden and Little Mountain operational.

OARC YAHOO GROUP

Did you know that OARC has a Yahoo Group?

We occasionally communicate with our OARC members via the Yahoo Group. Receive notices regarding upcoming club meetings and future e-newsletter release notices and much more like CHAT items of interest.

You can also send/receive notices to/from other group members yourself.

It's easy to sign up...

Just click on the  icon at the top of the club website home page and then follow the Yahoo Group instructions to create yourself a user ID and password.

OARC You Tube Channel

Did you know that OARC has a You Tube Channel ?

A lot of our meeting presentations are recorded and posted to our OARC You Tube channel for you to view at a later date.

It's easy to view missed

meetings...

Just click on the icon on the right hand panel of the club website home page to view recorded meetings preserved for your viewing pleasure.

Club Badges

OARC Club badges are available for all licensed club members.

The cost is \$10.00 each. The badge comes with a “MAGNETIC” clip. Badge includes your Call Sign in large letters and your First Name in a somewhat smaller font in white lettering on a pitch black background with the club logo. See example below.

Place your order along with \$10.00 in advance for each badge ordered and specify Call Sign and First Name. Contact webmaster or any club officer via email or contact the club treasurer at the next club meeting.

For additional information see club website left side menu and click “Join” to fill out a club application form to order a club badge.

OARC MEMBERSHIP DRIVE

SUPPORT YOUR RADIO CLUB

Don't forget to signup/renew your OARC membership now (\$15) which runs August to August. Consider signing up your spouse as well.

Ham + Spouse = \$15 + \$10 = \$25

THANK YOU FOR YOUR SUPPORT

Join OARC

Renew your membership now!

Membership in the Ogden Amateur Radio Club is open to anyone interested in Amateur Radio. You do not need an amateur license to join us. You do not need to join the club to participate with us. Dues are used to operate the club, field day activities, and repeater equipment maintenance.

Joining is easy. Come to a club meeting or fill out an application form from the club website (click "Join" from the left side main menu). Instructions for mailing on the form.

DUES: Dues are \$15.00 per person and runs August - August. (Ham + spouse = \$25.) More than one ham in the family? Consider the OARC Family plan for \$25.

NOTE: New Hams >>> Membership in OARC is complimentary for remainder of 1st year licensed.

ANNOUNCEMENTS

Next Club Meeting:

3rd Saturday of each Month

The Ogden Amateur Radio Club meetings are usually held on the **3rd Saturday** of each month.

Meeting/Activity:

See notices above

Talk-in: **-146.82 (pl 123.0)**

Check OARC web site for details

www.ogdenarc.org

Please invite a friend to join you. You do not have to be a member of the club to participate in our club meetings or activities. We invite all to join us.

If anyone is interested in doing a presentation on something or just have something unique to show at the meetings. - Please get a hold of any of the officers and let us know.

Next Weber Co VE Test Session:

1st Wednesday Feb, Jun & Oct

Exam sessions are held in Ogden every few months, **usually** the first Wednesday in February, June, and October.

Time: 06:00 PM *Walk-ins allowed*

Location: Permanent location

**Weber County Sheriff Office
Training Room
712 W 12th Street Ogden Utah**

Contact: VE Liaison:

Rick Morrison W7RIK (Liaison)

morrisonri@msn.com (801-791-9364)

Jason Miles KE7IET (IT)

Cost: \$ 14.00

Two forms of **ID**, one of which must be a **picture ID**.

For "Upgrades" bring current **license** and a **copy** of current license, and any **CSCE's**

Most **calculators** allowed. Calculator memories must be cleared before use.

Club Web Site

Be sure to visit our club web site.
