

## **OARC 10-meter Net Preamble**

-----

Good Evening. This is amateur radio station “your callsign”, net control station for the Ogden Amateur Radio Club 10-meter net. This is an informal net and all who want to participate are encouraged to check in. You do not need to be a member of the Ogden Amateur Radio Club to participate.

This net originates in Ogden Utah and meets every Thursday evening at 6:30PM mountain time on 28.375 plus or minus 5khz depending on if the frequency is busy. The purpose of this net is to promote activity on the 10-meter band or any other HF band.

We will first ask for local check-ins and then for any out of area stations. If net control does not hear someone that you can hear please relay that checkin. After we get everyone checked in, we will then go back to our check-ins for their comments.
