

OARC HAM RADIO EQUIPMENT LOAN PROGRAM

The OARC Ham Radio Equipment Loan Program is a program that provides new or inexperienced OARC member hams use of donated/loaned equipment for a limited time use while you are deciding how to move forward in the hobby.

Equipment can be checked-out initially for a period of up to 3 months. If requested, an extension may be granted if no one else has a request pending for the same equipment. More than one item can be checked out if the other items are related by use.

To check-out a specific piece of equipment, send an email to the OARC club email address w7su@arrl.net with the subject="equipment loan" and indicate your choice of equipment.

If any specific piece of equipment that you are interested in is already checked out to someone else, go ahead and request that item now so that we will know about your desire to reserve the equipment for you once it becomes available.

NOTE: You must be a current member of OARC to participate.

73, OARC – W7SU

Check OARC Website home page for equipment loan inventory chart.
