

The Best of Amateur Radio

Presidents Message...

Let's get to know some of the officers...

Mike Fullmer (KZ7O)

I am Mike Fullmer. My call sign is KZ7O. I live in Roy and have lived there for almost 20 years now. My wife's name is Joan and her call sign is N7OLZ. I have 4 children, two at home and 2 in Logan (they think they are responsible adults now). I first received my license in 1975 while I was a senior in High School. I was taking an electronics class and the teacher was a ham and had a station set up in the classroom. Several of us in the class got our licenses, but I was the only one that stayed with it. I work as an electrical engineer for FMC Airport Systems - Jetway. I design electronic and electrical stuff for the airport industry. My main interest in amateur radio is the technical part, radios, operating, and antennas. I have a 50 foot tower at home with antennas on it.

Mike Fullmer
FMC Airport Systems
Jetway

Dallas Pedersen (WB7AKX)

Most of my childhood I lived in Boise, Idaho. My father (Skjold) was a carpenter, but was always fiddling with electronics. In 1976 we both studied for our Novice

license. He received WN7AKY (sk) and I received WN7AKX. In 1977 my dad upgraded to "tec" and I advanced to "General" while in Seminary in L.A. We both then received "WB7". Several years later my younger brother (Dairo) got interested with Radio and received his "General" WB7BSY.

My occupation as a minister with The Salvation Army has required different assignments in the 13 western states. Each location from Alaska to the Mexican Border (California), I was able to hook up a "Long Wire" and continue to make contacts around the world. Since one of my many duties is in "Emergency Services" I have found "Amateurs" are always ready to respond as communicators.

I feel every Amateur should be prepared with a "grab bag" so he/he can be ready to respond rapidly when needed. I am a member of "SATERN", Salvation Army Team Emergency Radio Network. This team is set up to respond nationwide to assist in any disaster situation. During "Ground Zero" this group was one of the major communicator groups.

It is a pleasure to serve as one of the Officers of the Ogden Radio Amateur Club.

What is in your "Grab Bag"???
Extra Batteries.—Battery Jumper Box---- Power / antenna adapters—roll of tape
Small tool pack--- extra coax—extra mag mount antenna.

Dallas (WB7AKX)

Items for Sale

Attenuator for transmitter (fox) hunting. New, never been used. Accidentally bought 2. Pd \$40 new. Make an offer. Contact Gregg Moore 782-3064

OARC Monthly Meeting

Place: Weber County Sheriff’s Building
 West 12th St.
 Ogden
 Time: 3rd Saturday of each month
 9:00 a.m.

OARC Breakfast before Meeting

Place: The Branding Iron
 1310 Wall Ave
 Time: 8:00 a.m.

Next Meeting Agenda

Saturday, November 16th 9:00 a.m.

For the club meeting this month we have a special guest, NZ7T, Jim Rudnicki. Jim is going to talk about the 6 meter band. This is a general presentation of what can be done with this band and some hints and pointers about how to get on 6 meters. 6 meters is available to all hams. Jim lives in Layton and likes to play with all different areas of ham radio. We need to have a big turn out to listen to what he has to say, EVERYONE come to meeting!

Mike Fullmer (KZ7O)

Club Dues and Information

The Ogden Amateur Radio Club is a non-profit organization, incorporated under the laws of the State of Utah. It is also an ARRL Special Service Club. Membership is open to any person interested in Amateur Radio. Full membership is available only to those possessing an FCC issued license. Associated memberships are available to all others. For Watts News subscription only. Membership to the club is for one year, payable anytime during the year.

Fees are as follows:

Single membership	\$15.00
Each additional family member	\$ 8.00
Associate membership	\$10.00

Send Dues to:

Weber County A.R.E.S.

Meeting time 3rd Saturday of each month @
10:30 a.m.

A.R.E.S. Call Out

ARES was called out on early October 26th to assist the Sheriff with the incineration of some old dynamite in Uinta. Through the use of 70 cm fast scan the Sheriff's dept. were able to see actual live video of the scene safely from several blocks away in the Mob Com. Thanks to Lance (KD7OYA), Sal (KD7JRX), Scott (KD7EKO) and Dallas (WB7AKX) who worked communications (Dallas also provided refreshments through the Salvation Army) and Clint (KD7BPK) and Casey (KD7BNY) who setup and worked the fast scan. ARES was able to provide support for the Sheriff that they were never able to have before. It was a real eye opener. The Sheriff really depended on the help that we were able to provide.

GREAT JOB !
